

**Family  
Note**

With your child, find patterns around your house and neighborhood. Look at fences, buildings, doors, windows, wallpaper, and fabrics. Try to draw some patterns that you see together. You may be able to take a camera along and record some patterns you find.

Look for outdoor objects that have patterns or geometric shapes on them.

Take a look at the leaves on different trees.

What do you notice about their size, shape, edges, and veins?

How are they the same? How are they different?

Look at patterns in spider webs.  
Find shapes in the webs.
