

## Family Note

Calendars offer many valuable opportunities for children to count and read numbers. Talk about extending your Kindergartener's personal calendar into a family calendar on which you can record important family appointments, events, and occasions.

Look at your calendar to find answers to the following questions:

- ▷ How many days are there this month?
- ▷ How many Wednesdays? Fridays? Sundays?
- ▷ What day is the first? The fifth?
- ▷ What is today's date?
- ▷ How many days are left in this month?
- ▷ Mark special days like birthdays and holidays.
