

Family Note

In this activity, children become more comfortable with mathematics language, including attributes. You may find it helpful to keep the following definition in mind.

Attributes: When you describe an object by its physical characteristics, such as size, color, thickness, you are describing it by its attributes.

Have a treasure hunt.

- ▷ Find a small ball and a large ball.
- ▷ Find a little pillow and a big pillow.
- ▷ Find a thin book and a thick book.
- ▷ Find something taller than you and something shorter than you.
